

Responsive Hero Banner Guide

1. Hero Banner Dimensions

- Desktop: Width 1920px, Height 600-800px (~16:5 aspect ratio)
- Tablet: Width 768-1024px, Height 400-600px
- Mobile: Width 375-480px, Height 300-500px

Note: Adjust height based on content and ensure key elements are visible.

2. Image Scaling / Responsiveness

CSS Example:

```
img {  
  width: 100%;  
  height: auto;  
  object-fit: cover;  
}
```

Optional srcset Example:

```

```

3. Typography / Text Placement

- Desktop: Heading 36-48px, Subheading 18-24px
- Tablet: Heading 28-36px, Subheading 16-20px
- Mobile: Heading 20-28px, Subheading 14-18px
- Buttons: Minimum height 44px for touch targets

4. Notes / Recommendations

- Always prioritize visibility of key content on all screen sizes.
- Use high-quality compressed images for faster loading.

- Test banners on multiple devices to ensure responsiveness.
